Dear Sir/Madam:

As appointed agent for **Rockwell Collins, Inc.**, we submit the application for Federal Communications Commission certification of the above product. Please review all files uploaded to your electronic filing site.

This Class II Permissive Change is to extend the frequency range from 769.15-770 MHz to 769-775 MHz. The modifications to extend the channel frequencies will be a database configuration update, and the programming to allow this range to be programmed. There is no HW or firmware updates required.

If you have any queries, please do not hesitate to contact.

Yours truly,

*Dan Huynh*
