Federal Communications Commission Authorization and Evaluation Division 1435 Oakland Mills Road Columbia, MD 21046

Subject: Limited Module Approval for XEU2703240

To Whom It May Concern:

Rockwell Collins Inc hereby requests a Limited Module Approval as provided in Section 15.212 of the FCC Rules. The requirements of this section have been fulfilled as follows:

- 15.212(a)(1)(i); Requirement of RF Shielding: The module meets the radiated emissions limits of sections 15.209 and 15.249 of the FCC Rules.
- 15.212(a)(1)(ii); Requirement of Buffered Input: The module does not provide a direct data input to the modulator.
- 15.212(a)(1)(iii); Requirement of Power Supply Regulation: The module incorporates its own regulators, which are denoted as PS1, U505 and U506 (Carrier Board) and U66, U91, and U71 (Transceiver Boards) in the documentation
- 15.212(a)(1)(iv); Antenna Requirement: The module incorporates a permanently attached antenna.
- 15.212(a)(1)(v); Stand-Alone Test Configuration: The module was tested in a standalone test configuration as described in the test report.
- 15.212(a)(1)(vi)(A); Labeling Requirement: The module will be labeled with its own FCC identification number, and the device into which the module is installed will display a label referring to the enclosed module. A picture of the external label is included with the documentation.

RE:

Page 2 of 2

- 15.212(a)(1)(vii); Operating Requirements: The module meets the specific rules for this type of transceiver, and the User's Manual contains instructions for maintaining compliance.
- 15.212(a)(1)(vii); RF Exposure: The module complies with RF exposure requirements as demonstrated in the test report.

Sincerely,

Jason J. Heimer

Program Manager

Rockwell Collins
